

Introducing the new

Reports App

With the new GOReports App, gain access to real-time data from virtually anywhere right at your fingertips.

Exclusively powered by AM/PM for customers with LOC Store Management Suite (SMS), the **GOReports** app gives you the added convenience to access a wide variety of reports while on the go. From daily sales to vendor invoicing and top movers, generating reports has never been easier. Download the **GOReports** app today!

Reports Features

L∪C ⇒ Integrated

AM/PM has designed a powerful tool to further enhance your user experience with LOC Store Management Suite (SMS) software offering real-time analytics to help make important decisions while you're on the go.

Easy to Use Design

GOReports was designed with simplicity in mind for ease of use and convenience. Easily navigate the "Overview" tab for key information at a quick glance including net sales, department multi/single totals and much more.

Accessible Anywhere

Log into the AM/PM GOReports app from virtually anywhere with an internet connection. **GOReports** provides the convenience of running reports from home, on-the-go or while at work.

Reporting in Real-time

With AM/PM's GOReports app, data is gathered from your integrated LOC SMS software and updated in real-time. Real-time reporting provides management with accurate data and reporting from virtually anywhere, enabling them to make informed decisions, right from their mobile device.

Exclusive App Reporting App

The **GOReports** app was exclusively designed by AM/PM to support the growing needs of LOC SMS software customers. Available only to AM/PM customers, contact your AM/PM Point-of-Sale Expert for pricing or more information today.
